Choose from a variety of disciplines.

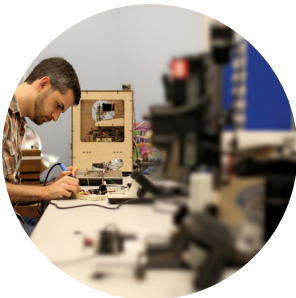

Arts & Science Co-op

Our program has students seeking co-op jobs year-round with work terms starting in January, May and September. They are available for 4, 8, 12 or 16-month work terms so you can choose a duration that best suits your organization's projects and needs. Hire students from a rich menu of programs from over 35 academic disciplines within: **Computer Science, Mathematics, Statistics, Life Sciences, Physical & Environmental Sciences, Psychological & Health Sciences, Humanities and Social Sciences.**

Arts & Science Internship Program (ASIP)

Discover ASIP, a dynamic program that welcomes students through a competitive process dedicated to nurturing diverse talent. Students immerse themselves in 70+ hours of professional development programming, workshops and one-on-one coaching to help ensure their success once they join your team. They are available for a 12-to-16-week Summer Co-op following their second year of studies, and an 8-, 12-, or 16-month work term, starting in May or September, following their third year of studies. Select from a rich pool of talent across 40 academic programs within: **Computer Science, Humanities, Life Sciences, Physical and Mathematical Sciences, and Social Sciences.**

U of T Engineering Professional Experience Year Co-op Program (PEY Co-op)

Canada's largest and longest-running professional experience year engineering co-op program, the PEY Co-op program equips students with the skills employers look for and prepares them for lifelong career success. Choose to hire our students for a 4-month summer work term or for a 12-16 month experience year. With nine different academic disciplines, you will find the right engineering candidate for your needs. Disciplines include: **Chemical, Civil, Computer, Electrical, Industrial, Materials, Mechanical, Mineral and Engineering Science, plus specializations ranging from aerospace and biomedical to AI and engineering business.**

Management Co-op

Innovative. Coachable. Globally mobile. Management Co-op candidates are educated in every area of business, with the option to specialize, while earning a Bachelor of Business Administration (BBA) degree from Canada's top-ranked university. Build your talent pipeline when you recruit from our specialty streams:

Accounting, Economics, Finance, Information Technology, International Business, Marketing, Operations Analytics, Organizational Behaviour and Human Resources, Quantitative Finance and Statistics, Strategic Management.

Join the ranks of world-class companies and organizations who partner with and hire the best-in-class from U of T Co-op.
